

Responsible sharing

Add caveats such as any limitations or concerns with the methods or conclusions

Share what others have said. Are they reliable sources?

Defer to the expertise of others if the preprint is outside your field

Share the full preprint link

Link to peer-reviews if available

Debunk any irresponsible sharing

Give credit to others

Propagate conspiracy theories

Share information from untrustworthy sources

Assume you're an expert in everything

Share the headlines only

Sensationalise

Be rude or offensive

Share copyrighted material
